THE DISCLOSURES

HIGH SPEED INTERNET SERVICE POLICY (IF APPLICABLE) In the best interest of service quality, Corn Belt Telephone has adopted the following practices in regard to High Speed Internet Service Features. Corn Belt Telephone will provide High Speed Internet Service Features to a Subscriber with the following conditions known to the Subscriber via their signature on this policy statement.

Internet Subscribers are bound by netINS, Inc. Acceptable Use Policy at www.netins.net/acceptable_use_policy. This service is provided over various means of infrastructure, including but not limited to twisted pair copper, coax cable, fiber optics and wireless transport. Although Corn Belt strives to provide quality and uninterrupted service, there is no guarantee of uninterrupted service or of service quality.

Wireless services have many issues that can create service problems. Service is degraded by atmospheric conditions, the same as radio and television. Trees and other vegetation also create problems. If you have a lot of trees in your area or between your location and the tower site, you can experience service problems, even after working fine for months. Please understand these issues exist and are beyond our control.

Connection speeds start at 3 Mbps, depending on service location and transport medium. All speeds are at best effort industry standards. No data rates are guaranteed.

Disconnection of service can occur due to any of the following conditions: 1) Late payment for any reason, 2) Any unlawful use of services, 3) Redistribution of services outside subscribers subscribed address location, 4) Other subscriber issues not in the best interest of Corn Belt Telephone Company.

Subscriber understands the loss of electrical power, for any reason, to the computer, modem, router, server, receiver, transmitter or any other network equipment, will cause service to fail.

Subscriber also understands that this service can be discontinued by Corn Belt Telephone Company at any time, for any reason, without prior notice.

The person signing this policy represents that he or she is the Authorized or designated Subscriber to the High Speed Internet Service Feature.

REGULATORY DISCLOSURES

NATIONAL DO NOT CALL REGISTRY The Federal Communication Commission (FCC) and Federal Trade Commission (FTC) are now sharing responsibility for enforcing the National Do-Not-Call list. The FCC now requires all telecommunications carriers that provide Local Exchange Service to notify their subscribers of their rights as they relate to the Do-Not-Call rules. You have the right to give or revoke an objection to receiving telephone solicitations. To register or revoke your registration, please visit www.donotcall.gov, or call 1-888-382-1222 (TTY 1-866-290-4236).

The national registry prevents telephone solicitations made for commercial purposes only, and will not prevent telephone solicitations made by a tax-exempt nonprofit organizations, for example, for charitable or political purposes. Also, the registry will not prevent calls from companies with whom you may have an established business relationship.

The FCC has defined an established business relationship as one in which the consumer has “a prior or existing relationship” with a company that is formed voluntarily through communications between the company and the consumer on the basis of a purchase or transaction regarding products or services within eighteen (18) months immediately preceding a telephone solicitation, and which has not been previously terminated by either the consumer or the company. Such an established business relationship also exists on the basis of a consumer inquiry regarding a company’s products or services within three (3) months immediately preceding the date of a telephone solicitation and which has not been previously terminated by either the consumer or the company.
